SOCIAL MEDIA MANAGEMENT

Curating convertible content copies that speak volumes about your brand with less and more strategic words is an art, and we are good at it! You can trust us to write for your business in a language that resonates with the class of your business.

We will help you flourish your leads and conversions from all around the world.

CONTENT WRITING

Curating convertible content copies that speak volumes about your brand with less and more strategic words is an art, and we are good at it! You can trust us to write for your business in a language that resonates with the class of your business.

We will help you flourish your leads and conversions from all around the world.

WEBSITE DESIGN & DEVELOPMENT

A business without a website today is almost non-existent for potential customers. It is your virtual address, where one can glance through the necessary information about your business. Also, expanding the business beyond your local area is only possible by having a magnificent website.

Digital deliveries are possible at every corner of the world via a perfect blend of web design and web development plan, along with a top launch rate of the website on every browser and platform. We try to service every requirement under one umbrella for unique and beautiful websites with experienced developers, designers, copywriters, digital marketers, etc.

GRAPHIC DESIGNING

With a team of experienced and versatile designers, we strive to deliver you precisely what you want! Visuals are the backbone of your digital story; it is about showcasing your brand's emotion and experience. A quality design & consistent aesthetic inculcate a positive aura that pulls conversions. The entire projects we offer in graphics are strategically created to captivate footfall and boost performance.

Services

PHOTOGRAPHY

An image that pulls potential customers just by its look is an art that can be endured by very few after a great practice. At Digital Tale, we serve our clients with professional photography for their products and services. We guarantee to help you with high-quality, professionally photographed product images for your online store, E-commerce listing, print media, etc. and make sure that the pictures we click alter in becoming the backbone of your brand.

PERFORMANCE MARKETING

While you may secure digital space for your business with ease, it's not necessarily as easy to be visited by your potential customers. With the internet being overly populated with more than thousands of companies offering very similar products or services, we can use digital promotion techniques to be seen by our target clientele. We can help you optimize your digital ads (on google, meta or linkedin) to deliver maximum results!

PRESENTATIONS

No audience has ever complained about a presentation or speech being too short. It is prudent to fit vital information pleasingly in a smart and short presentation to have a crisp and clear presentation. Creating appealing PPTs to win business and related goals are our core focus. Our team consists of designers who charmingly design presentations that are remembered because of the use of exquisite graphs, charts, HD images and quality alignment between all texts and visuals through all slides.

NEWSLETTERS & MAILERS

Newsletters work as a life force for your marketing campaign. Having a full-fledged plan for delivering newsletters and mailers that are economical and cost-effective is paramount for every business. Our enthusiastic team effortlessly handles customization and regular deals to aid in taking care of the tedious task of periodic newsletters.

Newsletter serves the purpose of a postcard from traditional marketing times. It's a constant reminder of your business to your community. With today's technology, we can include action buttons such as shop now, book your appointment, follow us, etc., right there, making you reachable with just one click.

SPRING APPLIED BRAKE

This brake has two coils one is a booster coil & other is a holding coil. The holding coil is designed with much lower wattage hence there is a "Power Saver" feature in this type (M4000 series) Brake which provides added advantage of very fast engagement of the brake also. Due to low power consumption the Brake heating is greatly reduced and hence these brakes can be used in higher ambient temperatures.

BLUEBOLT ELECTRIC 3 WHEELER (LS) SPECIFICATIONS

47% of overall logistics costs are incurred during last mile distribution

Bluebolt Electric helps fleet owners reduce first & last mile logistics spend by upto 70%

Bluebolt Electric uses EV as the base technology combined with IoT, Solar based smart charging infrastructure, advanced telematics, GPS tracking and management platform, fast charging tech and custom developed smart accessories for first and last mile logistics for FMCG, Agri, Cold Chain etc.

It enables large fleets serving FMCO firms, eCommerce Firms, Government, Associations, Cooperatives etc. to setup and manage completely digital, electricity grid disconnected large scale first & last mile logistics operations.

Bluebolt Electric would be responsible for the EV hardware (vehicles and charging infrastructure) software (EV enabled Transport Mgmt System), on ground implementation and operations.

According to Central Institute of Post-Harvest Engineering and Technology (CIHET) in 2018, the total losses due to wastage of perishables amounted to ₹ 105 lakh Crores!

This provides huge opportunity for wastage reduction through development of post-harvest logistics to minimise transportation losses.
